SOFT SKILLS

- Leadership
- Team Collaboration
- Critical & Analytical Thinking
- Time Management
- Problem Solving
- Research Mindset
- Creative Problem Solving

PROFESSIONAL SUMMARY

Computer Science undergraduate at Saintgits College of Engineering (Autonomous), Kottayam, Kerala, specializing in Artificial Intelligence, Machine Learning, Computer Vision, and Image Processing. Experienced in developing deep learning models using PyTorch, implementing knowledge distillation, and building AI solutions through academic research and industry internships. Passionate about solving real-world problems using AI and computer vision.

EDUCATION

B.Tech in Computer Science Engineering

Saintgits College of Engineering (Autonomous), Kottayam, Kerala

Expected Graduation: March 2027 | GPA: 8.57 / 10

- Honours in Machine Learning
- Minor in Computational Mathematics & Applications
- Micro Specialization in Data & Computer Communications

12th Grade - Science Stream (PCBM)

Sree Narayana Higher Secondary School, Kattینگachira, Thrissur, Kerala

Year of Study: 2021 – 2023 | Percentage: 97.4%

WORK EXPERIENCE

AI & Automation Intern

Novox Edtech Ltd. (2026)

- Engineered automated workflows and AI-driven systems to streamline internal operations and student engagement processes.
- Designed and deployed intelligent automation pipelines utilizing modern AI APIs and web services for educational management.
- Optimized data pipelines and automated administrative tasks, significantly reducing manual processing time.

Machine Learning Intern

Intel Unnati Program (2025)

- Implemented image sharpening using knowledge distillation with deep learning models in PyTorch.

Web Development Intern

Cydez Technologies Pvt. Ltd. (2025)

- Developed responsive CRM based dashboard with an integrated chatbot to streamline educational management.

CORE SKILLS

- Machine Learning
- Deep Learning
- Computer Vision
- PyTorch
- Scikit-learn
- OpenCV
- Python
- SQL
- Image Processing
- Knowledge Distillation

CERTIFICATIONS

- Machine Learning & Deep Learning (NPTEL)
- Power BI for Business Professionals (SpringBoard Infosys)
- Data Visualization using Power BI (SpringBoard Infosys)
- Agile Scrum Certification (SpringBoard Infosys)

FEATURED PROJECTS

Image Sharpening Using Knowledge Distillation

- Built a teacher–student deep learning pipeline for efficient image enhancement using PyTorch.
- Evaluated performance using Peak Signal-to-Noise Ratio (PSNR) and Structural Similarity Index (SSIM).

LifeSync – A Semi-Autonomous Task Prioritization and Rescheduling System

- Designed an AI-powered life management platform integrating task prioritization, budgeting, health tracking, and productivity features using n8n.

Novox Student Dashboard

- Developed a responsive CRM-based dashboard with an integrated chatbot along with other student management automation projects with modern UI for educational management.

LEADERSHIP & EXTRACURRICULARS

Media Head – ACM Student Chapter

- Coordinated **Ascend** – A National Level Hackathon.

Marketing & Media Lead – Open Source Club

- Coordinated **Prayoga** – A State Level Inter-College Hackathon for two consecutive years.

Co-Head – Drishya Film Club

- Directed and supervised the College Mime Team and released a Short Film.
